Disclaimer: Neuronetics cannot guarantee coverage or reimbursement for NeuroStar TMS Therapy and Neuronetics makes no other representations as to selecting codes for procedures or compliance with any other billing protocols or prerequisites. As with all claims, individual physicians and hospitals are responsible for exercising their independent clinical judgment in selecting the codes that most accurately reflect the patient’s condition and procedures performed for a patient.

Physicians and hospitals should refer to current, complete claims forms based on the care rendered to the individual patient, and may wish to contact the individual carriers, administrative contractors, or other third party payers as needed.

About NeuroStar TMS Therapy®

NeuroStar TMS Therapy is indicated for the treatment of adult patients with Major Depressive Disorder (MDD) who have failed to receive satisfactory improvement from one prior antidepressant medication at or above the minimal effective dose and duration in the current episode. NeuroStar TMS Therapy is only available by prescription.
